About HANGMAN

- ▶ Hangman is a classic word game in which you must guess as many secret words as you can before chance runs out.

How to play HANGMAN

- ▶ Hangman(Computer) thinks of a word, the Player try to guess what it is one letter at a time. The Hangman draws a number of dashes equivalent to the number of letters in the word. If player suggests a letter that occurs in the word, the Hangman fills the blanks with that letter in the right places. If the word does not contain the suggested letter, the player's noose comes a step down. If the word contain the suggested letter, the Hangman's noose comes a step down.
- ▶ If the player guesses correct word, the player wins or else the hangman wins.

Tools Used

- ▶ Python3.6
- ▶ Pygame1.9

Challenges Faced

- ▶ We Faced Difficulties while Creating Hangman and Player.
- ▶ Difficulty when implementing required responses while interacting with the game

How We Overcame Challenges

- ▶ The Hangman Logic is from Al Sweigarts brilliant book,"Invent Your Own Computer Games with Python"
